Product Specification Sheet

Wireless Multimedia Presenter

Part #: AMP01EU

Product Description:

The Targus Wireless 2.4GHz 4-in-1 Multimedia Presenter enables you to take complete control of your on-screen presentation. The advanced 2.4GHz technology allows you to take complete presentation control up to 15 metres away. This has been designed for savvy professionals who give presentations in PowerPoint, and may from time to time require multimedia and internet controls during presentations. In addition to the user-friendly trackball mouse, effective PowerPoint functions and a built-in laser pointer, it also provides multimedia controls and 3 convenient hot keys.

Product Features and Specifications:

- This is a Targus global product
- 4-in-1 wireless presenter—trackball mouse, laser pointer, multimedia and presentation controls all in one
- Perfect for presentations - move around the room up to 15m in radius using 2.4 GHz wireless technology
- Convenient one touch hot keys allow you to switch between applications, launch the Internet and access e-mail at the touch of a button
